Q: Gradle jcenter dependencies not being found in Flutter project Having a hard time building a Flutter project with Gradle. Gradle has a dependency on jcenter, but when I include a dependency with Flutter it cannot be resolved.

```
jcenter { url "" }  
dependencies { flutter "io.flutter.app:flutter-plugins:1.0.0" }
```

On build, the line flutter build

is stuck on the above line.
Google has not turned up any useful info on jcenter dependencies, so wondering if anyone else has been able to resolve it.
